Phone: _____
Primary Secondary

What is a variance?

A variance means an alteration or change to a standard prescribed by the Land Use Bylaw.

What is a hardship

A hardship is the reason why it is difficult to comply with the regulations of the Land Use Bylaw. This may be because of some unique aspect of the property itself. A hardship does not relate to the personal needs of the landowner and cannot be “self-created”.

1. What is your **hardship**? (What is the unique circumstance for your property that warrants a variance?)

2. Have you considered revising the proposed project to **eliminate/reduce the variance request**?

Planning & Development Department

3. How have you **minimized the potential impact** the variance will have on the adjacent property owners?
